Profile

Frontend Developer and Computer Science student at Yaba College of Technology with a solid foundation in **responsive web design and development**. Skilled in HTML, CSS, JavaScript, Bootstrap, and version control (Git/GitHub), with practical experience building portfolios, e-commerce platforms, and interactive websites. Key qualifications include the ability to create **user-friendly, functional, and visually appealing websites** that support business objectives and improve online engagement. Experienced in both individual and collaborative projects, with proven skills in troubleshooting, problem-solving, and client-focused delivery.

Currently advancing knowledge in modern frontend technologies and continuously improving technical expertise to stay aligned with industry trends. Open to **freelance projects, internships, and collaborations**, bringing value through dedication, adaptability, and results-driven development.
